

TECHNICAL DATA SHEET

LDPE PELLET

Type of material	100% recycled LDPE
Color	Straw-colored / black / blue / white
Source of raw material	Post-consumer (PCR) and post-industrial (PIR) LDPE waste
Country of origin	Poland

PARAMETERS

MFI (Melt Mass-Flow Index) (190°C, 2,16 kg)	0,6 – 1,6
Density	0,90-0,94 g/cm ³
Pellet measurements	Φ4,5-5,5 * 1-4 [mm]
Filtration	100-200 μm

DECLARATIONS / COMPLIANCE

- Product originating from recycling, processed under **R3** recovery operation
- No substances from the **SVHC/REACH** list above permitted thresholds
- Material is not intended for food contact (unless certified otherwise)

PACKING AND LOGISTICS

- Big-bags approx. 1000-1200 kg
- Recommended storage: dry, sheltered area
